Last seen Aug. 24,2003. The lady who manages the farm told me where I rent a pasture that they disappeared during the hurricane. I was not informed about the horse missing until I went down there Sept 28, 2003. When asked by me she said that she had not seen them since the storm. When asked by the sheriff she had not seen them since June. Disappeared with three other mares (a black and two Grays.)
