MISSING HORSE

Missing Horse Near Waverly Hall, GA, 31831

NetPosse ID # : 2663
Pet Name : Batman
Gender : Gelding
Species : Horse
Breed : Quarter Horse
Description : ****** ********* contacted me about a gelding I was trying to find a companion home for, due to suspected navicular issues. After several phone and text conversations, I felt comfortable sending him home with her to be a companion horse for her barrel horse with the assurance that she would contact me if she could no longer keep him. I contacted her several times in the next couple months to see how he was getting along with her horse and she always assured me he was doing well. I realize now that nearly everything she told me was a lie.
