Missing Horse Near Hoschton, GA, 30548

NetPosse ID # : 2677

Pet Name : Grey Lady

Gender : Mare

Species : Horse

Breed : Quarter Horse

Description : On November 10th, 2013 I gave a girl my 2 horses, King and Grey Lady, with the understanding they would be companion horses and loved on by her niece. I made it extremely clear that the horses were not to be sold or given away and in the event that she was unable to keep them I would have first rights to them. I requested updates and pictures multiple times over the course of several years but with no success. On March 1st, 2018 I was informed that this same girl has been obtaining horses throughout the southeast under the same pretense and story that she gave me but that she is known to take horses to auctions and associated with a kill-buyer.
