

STOLEN HORSE

Stolen Horse Near Eldridge, IA, 52748

NetPosse ID # : 3327

Name : Kate

Gender : Female | Breed : Quarter Horse |

Description : My mare (AQH) Kate, was stolen in 8 years ago 2012 in Eldridge, Iowa where I had her boarded at a farm outside of town in the summer (I don't remember exact day anymore) I am still searching for her. She was born in 2005 so she would be 15 years old now. We believe the owner had something to due with her being stolen as he constantly hounded me to buy her to which I always said NO. I decided to move her somewhere else and when I came to pick her up she was gone and the owner refused to tell me where she was. Law enforcement was not able help with the situation. * Kate has a nice white/grey stripe on her head. * She had a type of scar on her top lip, blended in well. Visible to the eye and you can feel it as its rough. She should have a little white spot on the left side of her neck(see pics). She has white/grey eyelashes. * Kate's color pattern changed slightly over the years I had her. She started to show more flea-bitten pattern on her head and neck and she started showing more dapples on her body. Her legs always stayed dark in those years. There is a chance her color has changed some since she was stolen. She could be a grey dapple now after so many years. Its harder to know because as years went by

her colors became lighter. The pics I have are old of course so she might look a little different. Please look at the pics carefully. In the winter she was a total fuzz ball and got a very thick winter coat. I have been searching for 8 years and counting and I am begging you if you have her or have any information on her please tell me! She was and is my everything! I just want her back!

Area Last Seen : Eldridge, IA, 52748
