

# MISSING DONKEY

## Missing Donkey Near Cooperstown, NY, 13326

**NetPosse ID #** : 3450

**Name** : Armani

**Gender** : jack | **Breed** : miniature donkey foal |

**Description** : He was born 6/5/20. He was super sweet and friendly. Extremely friendly. Mom was super attentive to him and never let him out of her sight. My husband and I work off the farm. The farm has lots of visitors. I cannot 100% rule out predators (coyote, bobcat and even bear have been seen on the farm) but this boy disappeared without a trace. No buzzards, no nothing. Mom doesn't have a mark on her and was not looking for him. He weighed less than 50 pounds and would walk around with his nose in your back pocket. I can only hope that if someone did take him they are bottle feeding him. It did not occur to me to post this until a friend mentioned that someone, somewhere may know something.

**Area Last Seen** : Cooperstown, NY, 13326

**Date Lost** : 7/6/2020
