

MISSING HORSE

Missing Horse Near Fruitvale, TX, 75127

NetPosse ID # : 3759

Name : Dial

Gender : Stud Colt | Breed : Quarter Horse/ Bay Roan |

Description : MISSING AND ASSUMED STOLEN: Bay Roan Stud Colt Born August 8, 2020. Dial's dam, April, is a granddaughter of Blue Valentine on her bottom side. and her sire is Wimps King Buck, an AQHA Champion, who is a grandson of King 234 and King Wimp, a 100% foundation AQHA Champion. Not many horses have King 234 on their papers, but April does!! April is also a great-grandson of Wimpy and Raisin Sand. April's colts have made good roping and cow horses when bred to Max, and barrel horses when bred to Chick or Flash. This baby is her first by King, who is a calf roping horse. Dial's sire (King) is a stallion by Dialdollyformuscle (Bisquit) who stood at the rocking N for 16 years. Biscuit has produced many ROM roping horses, and he sired the 2016 AQHA Reserve World pole and barrel mare. He was a true all-around producer. Dial's great grand-dam on his dam's side is a ROM reining and working cow horse mare who won the 4H state finals in reining out of 388 qualifiers. April has produced one grand champion 4H all-around filly, and several great cow horses. In these pictures, Dial is now starting to show some roan characteristics as his dam is a bay roan. Doesn't matter what color he is, though, as

he is a beautiful stud colt with a wonderful disposition and should excel at whatever he is asked to do. Owned by Nancy Woods and her number is (903) 906-4039. Case number Constable Office Van Zandt County 2020-020

Area Last Seen : Fruitvale, TX, 75127
