# FOUND HORSE

## Found Horse Near Nacogdoches, TX, 75965

**NetPosse ID #** : 7453 | **Breed** : Quarter Pony |

**Description** :

saw signs of horse outside of our horses pasture - she spooked from us and ran onto the road - had been on our property but ran - we hunted for her - about 2 hours later she returned - came thru our gates up into our driveway - the spooked onto the road again - we were able to catch her and get her secure in a secondary pasture across our property from our other horses. -Nacogdoches County Sheriff Officers were present when we were able to catch her. Informed us they have no way to haul - that we could haul her to the location of their choice - they would try and locate owners but if not she would go thru the local auction
