Description : Purchased horse 3 weeks ago from an ad on equine.com. Owners refuse to tell me who they got her from so I can get sire and dam info. They changed their story several times on when and where they got her. She may have originate in Ohio. I suspect this horse could be stolen or missing. I will return the horse to owners if it is. If this is a legitimate sale, I would like to find sire and dam info so I can register this horse. I would like to know her history. She was bought in Bagdad Kentucky from (contact owner for name).
