Missing Horse Near Rush springs , OK, 73533

NetPosse ID # : 2963 | **Name** : Gracie and Spartan | **Gender** : Mare | **Breed** : Quarter horses |

Description : UPDATE: They are still missing with no trace!! My daughter's horses were out at our lease between rush springs and cox city. She went to feed and noticed the lock and chain had been replaced. We contacted authorities and filed a report when neither horse was found. Gracie is a 14 year old mare with socks on both left hooves. Spartan is a 2 1/2-year-old stud colt that has just been started so he doesn't know a lot. He has one sock on his hind right leg.
